1. Introduction

In the [ERUA Alliance](#), as Reform Universities we continuously question and transform our institutions, by drawing upon the diverse experiences and backgrounds of the university community, which embody the diversity of the society around us and encourage and allow all to participate, in shaping the future of the university.

The [2nd ERUA Summit](#) "Innovation and reform in the spirit of ERUA" will take place at Paris 8 University, on November 8th 2022. This summit is the occasion to gather the entire ERUA community, which currently includes 5 European universities (Paris 8 University, the New Bulgarian University, Roskilde University, the University of Konstanz and the University of the Aegean) and their associates, as well as other alliances and relevant actors of the European Higher Education and Research Area.

The [#ERUAiDeaThon 2022](#) competition is organised in the frame of the WP5 Re-imagining campus, by the University of the Aegean, which aims to engage campuses, communities, societies and regions. Under the WP5 flagship ERUAHaus for Creativity, we try to build creative and interdisciplinary communities, based on the humanistic values of the Bauhaus and Digital & Design technologies, focused on aesthetics, and SDGS of the Agenda 2030. In the ERUAHaus we aim to bring Arts and Science back together, with HumanNature connectedness, to open an "Intercultural dialogue", and achieve Social Change in campuses, communities, societies and regions.

The best ideas of the [#ERUAiDeaThon 2022](#) will be presented during the [Workshop 2 "Challenge and Experience your Ideas with ERUAaHaus"](#), 2nd ERUA Summit [11:10 – 12:40 CET, Room A2-201]. The winners will be announced a few hours later, during the [Closing Session](#) [8th November, 2022, 17:30 – 18:15 CET Auditorium MR002], where all applicants are warmly invited to attend.

Students and young citizens, professionals, activists and non-profit organizations will have the opportunity to present new ideas and actions that will help campuses, communities, societies and regions collectively to address problems around digitalization, sustainability, creativity challenges, and deal with them aiming to bring "Euphoria" to the world.
